

Tell Us Your Story

Who went on the ride:

When did you go:

Where did you go:

Why did you go: (a particular event or destination or just to get out and take a nice ride.)

What did you see? Interesting sights, events or happenings.

Did anything **unusual** happen? (Did you win something? Get lost? Oops! I mean take a detour or go exploring.)

Did you meet **interesting** people?

Where did you eat?

Name of Restaurant?

What dish did you have? (for instance: Hamburger - rating 3 or Lasagne - rating 4 and any other particulars you would like to include. Like - the Bleu Cheese salad dressing was wonderful or Fries were crisp and not too soggy or greasy, etc.) My personal favorite is the Grilled Chicken Salad with the Peppercorn Dressing at the Roadhouse Grill. I give it a 4.

Was it good? (Give it a rating from 1 to 4, Ashby Stiff style.)

- 1 - really horrible - don't ever go there. (The air conditioner was broken, there were flies everywhere, everything on the menu was fried—this is a personal preference of course—and the dog outside the door had copped an attitude and tried to bite me as we departed.)
- 2 - o.k., but wouldn't go unless there was no other choice and I was starving.
- 3 - pretty good, I'd go back again.
- 4 - Absolutely wonderful. Great food. Great service.

Would you eat there again?

Any last comments that don't fit into any of the above suggestions.

Number of Words -

- 1 column - approximately 330
- 2 columns - approximately 600
- 3 columns? - I'd like to save room for your pictures, but if you don't have any I'll try to spice it up.

You can get a fair idea about the number of words, if you are using a word processor with word count. Or just count the number of words if you writing longhand. It will even out. (This paragraph has about 36 words.) Or just write something and I'll edit it to fit.
